4Save Mart (Familia Market)

Overview

4Save Mart is a leading Super Market in Kuwait since 2020.It has multiple branches across Kuwait.

4 Save mart has major transactions from local to foreign with their suppliers to maintain their operations.
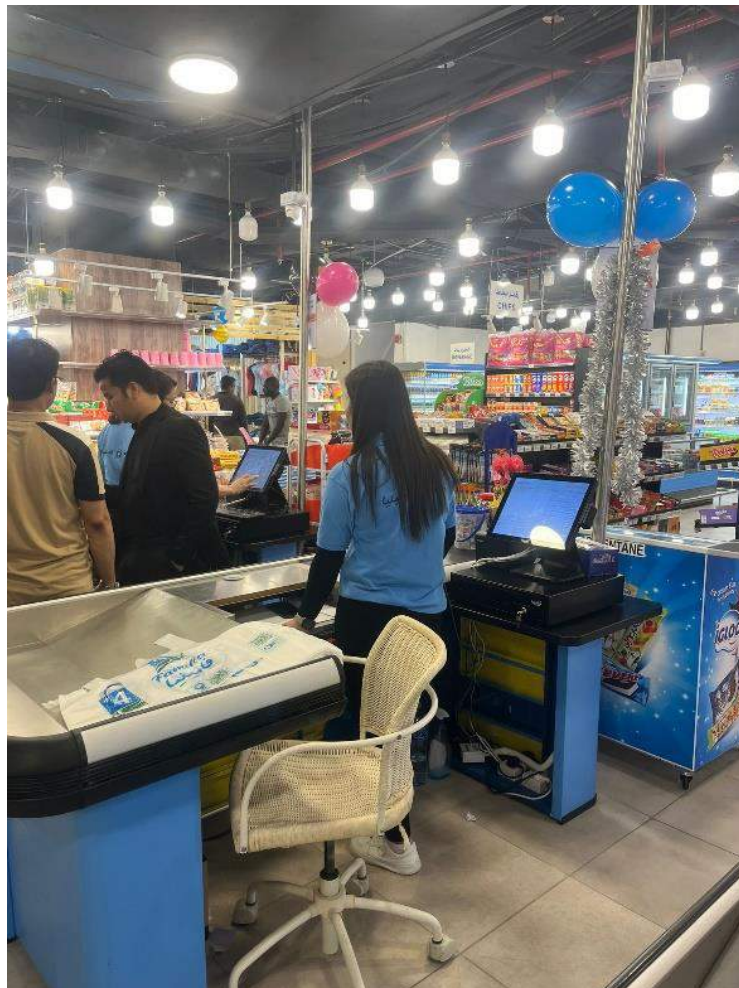

Background & Challenge

4Save Mart having different locations and they want to connect with centralized as they are using Pegasus retail software desktop version.

Solution

Pegasus provided Super Retail with Complete IT Networking Solution.
IT's a centralized solution where foreign purchasing with multiple pos sales from operates from multiple locations.

For security we have implemented firewall with vpn application to access the Pegasus software securely.

Pegasus RFID handheld technology automates data collection and vastly reduces human effort and error. Each asset or tagged item is detected and identified automatically, and it is matched up with the correct information in your database using its unique ID. The Pegasus RFID handheld device has a good range to catch the UHF tags. This is user friendly device which can access or export your data by one click. This device is having all the advance functionality.
