Camp Arifjan is a United States Army installation in Kuwait which accommodates elements of the US Air Force, US Navy, US Marine Corps and US Coast Guard. The camp was funded and built by the government of Kuwait. Military personnel from the United Kingdom, Australia, Canada,[1] Romania and Poland are also forward deployed there. Camp Arifjan is located south of Kuwait City, and west of the Shuaiba Port (Military Sea Port of Debarkation/Embarkation, or SPOD) and Kuwait Naval Base (KNB). Camp Arifjan is divided into 7 zones.

### Business Needs

Client were facing lots problems to manage all assets manually as assets issues to various locations, individual and stages like shift return and maintenance.

Implementation is part very challenge to implement with more 50-100 locations and 30k-40k asset like applying tags and registering with old records as well as making sure all modules uses and give correct asset tracking system.
